

47%

OF THE PEOPLE IN DETROIT
CAN'T READ THIS AD.

That's right. 47% of the people in Detroit can't read this ad, can't write a simple letter, have never even turned on a computer. In fact, they're barely literate enough to sign their names or locate an expiration date on a driver's license.

WE NEED YOUR HELP.

We need volunteers to train and certify as tutors to work with individuals, families and children to increase their reading, writing, math, and computer skills.

THE DISCOVERY LEARNING CENTER.

The Discovery Learning Center is specifically designed to address this problem with a structured program facilitated by trained tutors in a friendly environment.

THE FRANCISCAN PROJECT.

The Franciscan Project, which sponsors the learning center, is a non-profit, faith-based organization whose goal is to empower people through improved skills to address the root causes of poverty, violence, and injustice.

PART OF THE NEIGHBORHOOD.

In addition, The Franciscan Project operates a community lending library and a children's organic garden, both of which, like the learning center, are part of our effort to provide learning, experience, and community to the neighborhood.

I am interested in learning more about:

_____ Becoming a reading/writing tutor

_____ Becoming a math tutor

_____ Becoming a computer literacy tutor

The Franciscan Project, Inc.

P.O. Box 310633
Detroit, Michigan 48231-0633
